

Vocabulary Worksheet: Shapes

Part 1: Answer the questions below.

- Match the shape name to the description: circle, square, triangle, rectangle.
- Draw a line to match: Circle — ■, Square — ■, Triangle — ■, Rectangle — ■
- Write examples of where you see these shapes in real life.

Answer Key

- Circle = round, Square = four equal sides, Triangle = three sides, Rectangle = opposite sides equal
- Circle → ■, Square → ■, Triangle → ■, Rectangle → ■
- Examples vary
